On Screen Takeoff Advanced Estimating - 1 PM to 3 PM

This class will cover functions related to electronic plan drawings including:

- Electronic estimating using the full version of On Screen Takeoff (OST) 3
- Quantify counts, lengths and areas from scaled drawings
- Print, email or save takeoff to PDF or Excel
- Color code takeoff for presentation or job coordination
- Digital storage for all plan files and takeoff
- Overlay addenda drawings to originals to show changes
- Analyze and price quantities by areas such as Phases, Floors, or Buildings
- Sort and separate your takeoff objects for each page visibly for viewing and printing enhancements
- Using Autodesk's DWF Composer to work with CAD files
- Accelerate design reviews with Autodesk DWF Composer, the all-digital way to review, mark up, and revise 2D and 3D designs.
- View and print DWF and DWF files with accuracy and fidelity
- Measure and annotate the DWF file before round-tripping the markups for revisions

The fee for the advanced seminar is \$65 per participant; lesson manual included.

**Both classes will be held in the Classroom and
Safety Training Center**

3055 Alvarado Street, San Leandro

Space is limited so register today -
